BRL

Braille Labels

Do you have trouble reading your prescription labels?

Now there's a solution!

How does it work?

The pharmacy will attach a clear Braille overlay on top of the printed label on your prescription container. The durable strips let you easily identify your medications. Extended information is also available via a talking label.

How do I get Braille labels?

Talk to your pharmacist today. They can help you get started with Braille labels.

What does it cost?

There is no additional cost to you for this pharmacy service. This is a **FREE** program!
